Product Designer with 4 years of experience designing web and mobile products for international teams in Spain, Canada, France and Algeria. Most recently at DCB Software / Telecoming, designing global web experiences for a European telecom technology company active in 20+ countries , with AI tools (Claude, ChatGPT) built into my daily design workflow. Former product design team lead at Mobilis ATM , where I introduced a unified design system that cut design-to-development time by 35%.

Experience

UI/UX & Web Designer · Full-time, On-site Feb – Oct 2026

DCB Software / Telecoming — Spain & Algiers

- Designed and iterated global web experiences for a European telecom technology company operating in 20+ countries.
- Built AI into the design workflow (Claude, ChatGPT) to speed up research synthesis, persona creation, UX writing and usability-finding summaries, reducing iteration time.
- Used AI-assisted ideation to explore UI concepts faster and to document the shared design system.
- Delivered high-fidelity UI aligned with brand guidelines and UX best practices across web and digital product surfaces.
- Partnered with product, engineering and marketing to ship consistent, conversion-focused experiences across all touchpoints.

Team Lead, Product Design · Full-time, On-site Nov 2024 – Nov 2025

Mobilis (ATM) — Algiers, Algeria

- As the first UI/UX designer, built the company's first Figma design system from scratch, reducing design-to-development time by 35%.
- Led product design for internal and customer-facing platforms, defined the product vision and roadmap with stakeholders.
- Ran user research and usability testing that increased user satisfaction by 30%.
- Validated complex user flows with interactive prototypes, cutting development rework by 25%.
- Led a company-wide digitization initiative to replace paper-based processes, with positive stakeholder feedback.
- Prioritized the backlog and coordinated sprint planning across design, engineering and product.

Product Designer · Full-time, Hybrid Feb – Sep 2024

FB Technologies (Hanooty) — Algiers, Algeria

- Planned and ran interviews, surveys and usability tests to understand user behaviour and context.
- Created personas and user journeys that kept user needs at the centre of product decisions.
- Delivered wireframes, prototypes and high-fidelity UI that improved the e-commerce and dashboard experience, on scope and on schedule.
- Used quantitative and qualitative data to refine designs, increasing user satisfaction and engagement.

Product Designer · Part-time, Remote Jan – Sep 2024

Tchippa — Canada

- Ran usability tests, focus groups and A/B tests to uncover pain points across mobile and web apps.
- Wrote research plans, discussion guides and benchmarks to measure interface effectiveness.
- Worked with developers to feed research findings into the design system for a consistent experience.
- Led feedback-driven improvement cycles and presented insights to stakeholders.

UX/UI Designer · Full-time, Hybrid Sep 2023 – Jan 2024
Finnetude — Algiers, Algeria

- Delivered tailored web and mobile solutions for clients with developers and project managers.
- Led user interviews and persona research to drive data-informed design decisions.
- Created wireframes and prototypes and ran usability tests before developer hand-off.
- Documented use cases, UI elements and design animations to keep the platform consistent.

UX/UI Designer · Full-time, Remote 2023
Toobons — France

- Improved the interface and shopping experience of an e-commerce platform.
- Ran user research and usability tests, then turned findings into wireframes, prototypes and mockups.
- Worked remotely with a France-based team of developers and stakeholders.

UX/UI Designer · Freelance 2022 – 2023
Self-employed

- Designed web and mobile interfaces for clients, from discovery to developer hand-off.
- Managed client communication, scope and deadlines end to end.

Education

- **Master's in Computer Science**

  Yahia Fares University · 2022 – 2024

- **Bachelor's in Computer Science**

  Yahia Fares University · 2019 – 2022
